

BORDA in Southern and Eastern Africa

“Improved Sanitation for all”

BORDA

Bremen Overseas Research and Development Association

Our Mission

To improve the living conditions of disadvantaged communities and to keep the environment intact through the expansion of basic needs services in the areas of decentralized sanitation, water and energy supply, sewage and waste disposal.

Our Network in the SADC-Region

- BORDA Tanzania, SADC Regional Office, Tanzania
- Environmental Engineering and Pollution Control Organization (EEPCO), Tanzania
- Technology for Economic Development (TED), Lesotho
- Water and Sanitation Association Zambia (WASAZA), Zambia
- University of KwaZulu-Natal (UKZN), South Africa

Our Services:

- Facilitating basic needs services projects within the private and public sector
- Design and construction of reliable and cost-efficient decentralized wastewater treatment solutions (DEWATS)
- Project planning, monitoring and impact assessment
- Training and capacity development for the private and public sector
- Information, education and communication about on-site sanitation solutions
- Research and Development

How We Work:

- Demand-oriented, multi-stakeholder approach
- Proven and sustainable technologies and implementation approaches
- Continuous learning and high quality of services through knowledge and quality management systems in the BNS BORDA Network
- Building of local capacities, competences and skills

DEWATS Service Packages:

- Decentralized Wastewater Treatment Systems
- School Based Sanitation
- Community Based Sanitation
- Sanitation for Hospitals, Hotels, Institutions and Households
- Health Impact Assessment and Hygiene Education
- Urban Sludge Treatment
- Public Sanitation Centre
