

Project Features

Project name:	Mapambano Primary School
Project code:	EE-2005-03
Objective:	Improving children's health through providing new sanitation and washing facilities
Project focus:	School Sanitation
Location:	Kinondoni District, Dar es Salaam, Tanzania
Implementation agency:	EEPCO
Funded by:	Private donors (Netherlands)
Project duration:	02/2005 – 06/2006
Project leader(s):	Edmund John
No. of beneficiaries:	1200 pupils

Detailed Project Description

A technical assessment of the existing situation at Mapambano Primary School was undertaken. Consequently, new sanitation facilities were designed and constructed. The existing facilities were renovated. Additionally, water facilities were provided for anal cleansing, flushing, and hand-washing.

Construction details:

- 10 stances
- Pour flush latrine
- Offset pit

The project was meant to improve the school sanitation facilities through partnership of Netherlands school and Mapambano primary school.
